# ACADEMY OF DENTISTRY YEAR BOOK

1948-1949

TWENTY-SIXTH SESSION

VOLUME FIFTEEN

JOSEPH H. JOHNSON  
President

## PRESIDENT'S FOREWORD

In organizing the activities of the Academy for the coming year we have been guided by the established practice of previous years, and have attempted to present both the scientific and practical aspects of Dentistry. We hope that our programme, together with the opportunity provided for discussion and conference, may provide the stimulus which will result in better service to our patients. We have incorporated a strong thread of prevention, and believe that fundamentally this is the most effective way in which our profession can cope with present day demands.

Last year a very satisfactory start was made in the re-establishment of study groups, which had been temporarily discontinued due to the war. We hope to expand this phase of our programme this year, with R. C. Moore acting as chairman of the study group section. He has presented a detailed statement elsewhere in this book, and I commend it to you for your consideration and support.

The Rehabilitation Committee has now terminated the lease of the Spadina Road Dental Building. The effort of this Committee, which was conducted jointly by the Academy and the Dental Trades Association, has provided office space for approximately thirty of our confreres on their return from the armed forces at a time when office space was virtually non-existent. This Committee merits our sincere thanks for their untiring effort, and particular mention should be made of the chairman, H. A. Swales, and C. A. McKenna, to whom a tribute appears elsewhere.

The Winter Clinic Committee has been working since spring for the perfection of the Winter Clinic programme. No effort has been spared to maintain and improve previous standards. A detailed programme will be mailed in due course and in the meantime a cordial invitation is extended to the Dentists throughout Ontario to meet with us on November 25th.

We present the Year Book for your consideration and, we hope, your approbation. We are still in a post-war world, which limits certain of our activities. The Academy At Home will be restored if, and when, circumstances permit. We bespeak the support of all the Dentists in Toronto and the adjacent territory. Your suggestions and criticisms will be thankfully received, and your encouragement deeply appreciated.

## OFFICERS OF THE ACADEMY OF DENTISTRY

|                                                        |              |

President—R. E. Diprose, 280 Bloor St. W. ....MI. 4318  
 Sec.-Treas.—D. H. MacDonald, 2 College St. ....KI. 2600

MR. CHARLES MCKENNA

The familiar name and kindly face appearing on this page has been well known and respected, by individual dentists and dental associations throughout Canada, for over fifty years. The Academy of Dentistry, Toronto, is more fortunate than some because we have had him living among us for many of those years.

The quiet way in which he has assisted and advised us individually and collectively, always sending us away with a chuckle from some little story told in his own inimitable way, has encouraged many of us. One couldn't help feeling better or being better from having spent some time with him either in his office or on the golf course, curling rink or a fishing trip.

Far from feeling that he had made a sufficient contribution to the war effort in the wonderful work done on the prices board, he threw himself into a project to secure office space for dentists returning to practise from the armed forces. The fact that suitable office space was secured, that the Trades Association helped financially, and that many dentists were rehabilitated at 14 Spadina Rd., will soon be history and forgotten. Something which will never be forgotten by those who received office space, and by The Academy, who undertook the project, is the untiring effort put forth by our dear friend Charlie McKenna, who was never daunted by the innumerable obstacles and the seemingly impossible.

Charlie, as we call him, arranged for the lease from the Toronto Bible College, procured materials and directed the arrangement of the dental offices, interviewed and established tenants, as well as securing financial assistance from the Trades Association. No one could believe it humanly possible to do so much, unless you knew Charles McKenna.

We feel quite sure he has been amply repaid by the success of the project, and the satisfaction expressed by the tenants. That is Charlie's measure of reward. However, the Academy executive and every last member wish to publicly express their deep appreciation to him. God bless you, Charlie.

## DENTAL PUBLIC HEALTH COMMITTEE

Your chairman of Dental Public Health of the Academy of Dentistry has found after two years on the Ontario Dental Public Health Committee that there is a very great deal to learn regarding the whole problem of Preventive Dentistry. The Ontario Dental Public Health Committee under the chairmanship of Dr. H. A. Swales has done a prodigious job. How to correlate this programme throughout the whole province and particularly in larger communities will take a long time and a great amount of effort by every dentist. The success achieved in smaller centres like Welland, Ottawa, Peterborough, etc., is well known. The doctors in charge of these efforts are to be sincerely congratulated.

Trying to follow the pattern of the Ontario Dental Public Health Committee and apply it to larger communities has been a more difficult task. Many larger places already have Dental Public Health Departments. These Departments have been in existence for a considerable time. They have served and are continuing to serve the pre-school and school children following out a treatment programme.

The activities of the Ontario Dental Public Health Committee are confined entirely to education. The Public Relations Committee is in charge of treatment programmes. This leaves the Academy representative endeavouring to correlate the activities of two separate programmes.

As your chairman I would like to make one observation—"DENTISTRY FOR CHILDREN IS PARAMOUNT". Everyone of us must, in our own way, do everything we can for the children who come to us; we must not shirk our responsibility. If you feel you cannot work for children, remember there is someone in your own community who can; refer your child patient to that man. In the City of Toronto the demand for dentistry for children exceeds the supply—THE ONUS IS UPON US!

## CALENDAR OF DENTAL MEETINGS

1948

- Sept. 9—Toronto East Dental Association—Golf Tournament.
- Oct. 6—Toronto East Dental Association—Ladies' Night.
- Oct. 21—ACADEMY OPENING DINNER—ROYAL YORK HOTEL.
- Nov. 3—West Toronto Dental Society.
- Nov. 9—North Toronto Dental Association.
- Nov. 11—ACADEMY FIRST GENERAL MEETING—  
ROYAL ONTARIO MUSEUM.
- Nov. 18—Toronto East Dental Association.
- Nov. 25—ACADEMY WINTER CLINIC—ROYAL YORK HOTEL.
- Dec. 2—The Association of Downtown Dentists.
- Dec. 7—North Toronto Dental Association.
- Dec. 16—Toronto East Dental Association.

1949

- Jan. 6—The Association of Downtown Dentists.
- Jan. 13—Toronto East Dental Association.
- Jan. 18—North Toronto Dental Association.
- Jan. 19—ACADEMY SECOND GENERAL MEETING—  
ROYAL ONTARIO MUSEUM.
- Jan. 24—West Toronto Dental Society.
- Feb. 10—Toronto East Dental Association.
- Feb. 16—ACADEMY THIRD GENERAL MEETING—  
ROYAL ONTARIO MUSEUM.
- Feb. 22—North Toronto Dental Association.
- Feb. 23—West Toronto Dental Society.
- Mar. 3—The Association of Downtown Dentists.
- Mar. 3—Toronto East Dental Association.
- Mar. 10—ACADEMY FOURTH GENERAL MEETING —  
ROYAL ONTARIO MUSEUM.
- Mar. 15—North Toronto Dental Association.
- Mar. 23—West Toronto Dental Society.
- Apr. 13—ACADEMY FIFTH GENERAL MEETING—  
ROYAL ONTARIO MUSEUM.
- May 11—West Toronto Dental Society—Golf and Dinner.

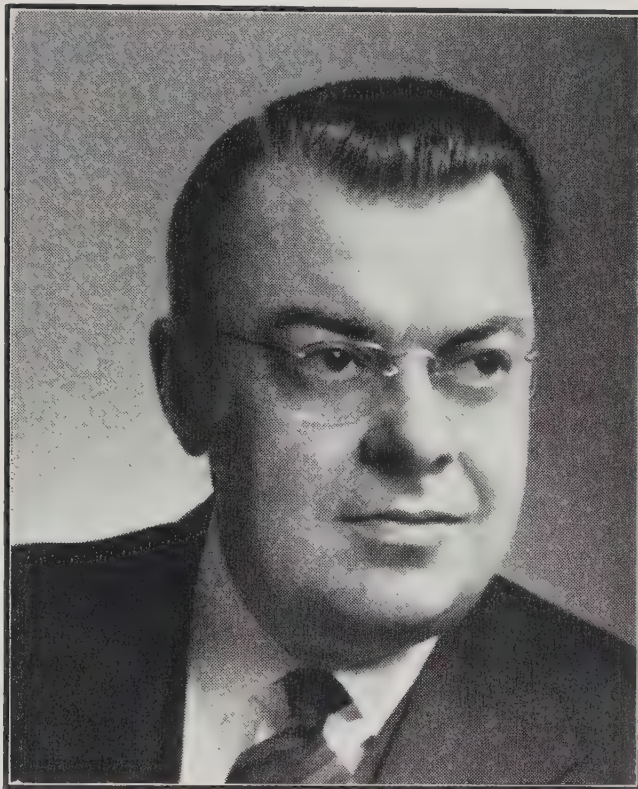

# ANNUAL DINNER MEETING

ROYAL YORK HOTEL

6.30 P.M.

OCT. 21, 1948

THE HON. PAUL MARTIN  
Minister of National Health and Welfare

**Subject: "DENTAL HYGIENE IN CANADIAN HEALTH PROGRAMME."**

The Hon. Paul Martin was born at Ottawa, Ontario, June 23, 1903, of French-Canadian parentage. He is an honour graduate of St. Michael's College, University of Toronto. His legal education was acquired at Osgoode Hall and Harvard Law School. The University of Michigan presented Mr. Martin with an honorary L.L.D. degree in 1947.

He was awarded Wilder Fellowship to Cambridge University, England, 1928; research student under Professor Pierce Higgins and Dr. Arnold D. McNair, 1930. Awarded Zimmern Scholarship and attended Geneva School of International Studies at League of Nations, Geneva, Switzerland, 1930 session.

He lectured in Political Science, Assumption College, University of Western Ontario, 1931-34.

Mr. Martin began the practice of law in 1930 and was appointed King's Counsel in 1937.

He was elected to the House of Commons 1935, re-elected 1940 and again in 1945.

The Hon. Mr. Martin, whose brilliant political career has been high-lighted by his occupancy of many important posts, has still found time to write numerous articles on labour and industrial relations, international affairs, political science and legal subjects.

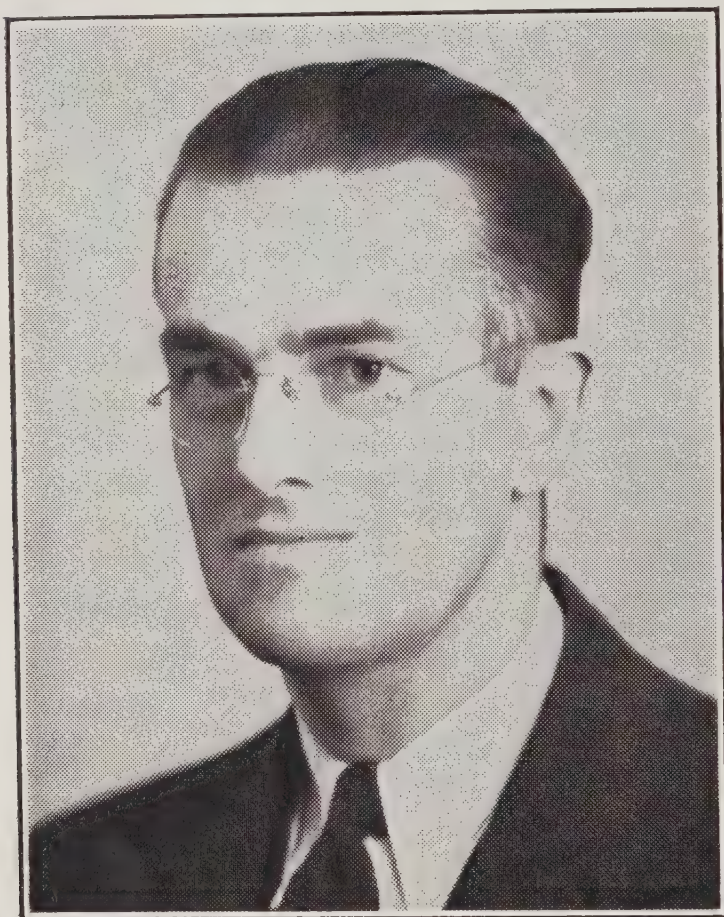

## FIRST GENERAL MEETING

ROYAL ONTARIO MUSEUM

THURSDAY, NOVEMBER 11, 1948

8:15 P.M.

DON. W. GULLETT, D.D.S., F.A.C.D.

**Subject: "OBSERVATIONS ON DENTAL PRACTICE UNDER THE NEW  
NATIONAL HEALTH ACT IN GREAT BRITAIN."**

Dr. Don. W. Gullett is a graduate of the Royal College of Dental Surgeons, Toronto, 1923. From the time of graduation until 1940 he practised at Picton, Ontario. In 1940 he was appointed Registrar-Secretary of the Royal College of Dental Surgeons and secretary of the Canadian Dental Association in 1943.

Dr. Gullett was in Great Britain during July and August studying the introduction of the new National Health Act which came into force on July 5th last. He has endeavoured to obtain as much first-hand information as possible concerning the influence of the drastic changes enforced under this Act.

ANNUAL WINTER CLINIC  
**THURSDAY**

NOVEMBER 25th, 1948

ROYAL YORK HOTEL

SYNOPSIS OF PROGRAMME

|                        |                                                                            |

## ANNUAL WINTER CLINIC

### GROUP CLINICIAN

PHILIP J. MODJESKI, D.D.S., B.Sc., (Dent.)

**Subject: "GOLD INLAY."**

Dr. Philip J. Modjeski, a well-known American clinician, is a graduate of the University of Illinois School of Dentistry, from which institution he also received his Bachelor of Science degree. He has been associated with the teaching staffs of the Universities of Texas and Illinois and is at present head of the Department of Dental Materials and Basic Technology and assistant professor in the Crown and Bridge Department at the Medical College of Virginia.

In his presentation, Dr. Modjeski will discuss and demonstrate cavity preparation, including instrumentation, construction of wax patterns, using both the direct and indirect techniques, and investing and casting by one of the vacuum methods.

## ANNUAL WINTER CLINIC

### GROUP CLINICIAN

JOHN W. GERRIE, B.A., D.D.S., M.D.,  
C.M., D.L.O. (Eng.)

**Subject: "TWENTY-FIVE EASY WAYS OF KEEPING OUT OF TROUBLE  
IN ORAL SURGERY."**

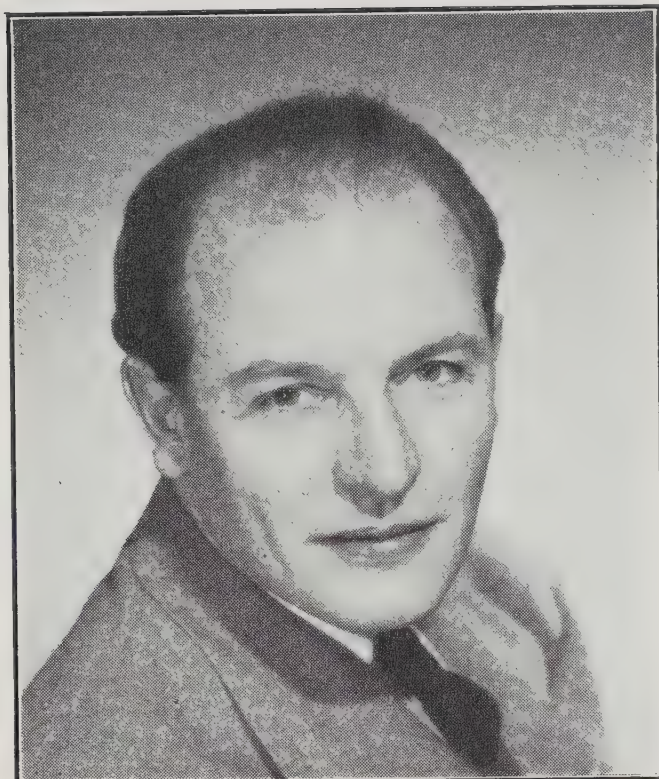

Dr. Gerrie graduated from the Faculty of Dentistry, University of Alberta and in Medicine from McGill University. He is well qualified to present the above topic as he is Associate Professor of Oral Surgery and Chairman of this department at McGill University.

In his presentation he will present a clinic in the nature of a survey of the pitfalls in Oral Surgery, illustrated by cases from the author's practice and the Department of Oral Surgery, McGill University.

## ANNUAL WINTER CLINIC

### LUNCHEON SPEAKER

JOHN W. FISHER

John W. Fisher, noted C.B.C. commentator, was born in Sackville, New Brunswick, and educated at Dalhousie University from which he graduated with a degree in law.

He served in connection with the Rowell-Sirois Commission, and worked as a newspaperman before entering the field of radio and public speaking.

Mr. Fisher's talk which will be titled "John Fisher Reports" will be a lively reflection of Canadian life today.

## SECOND GENERAL MEETING

ROYAL ONTARIO MUSEUM

WEDNESDAY, JANUARY 19, 1949

8:15 P.M.

DON. H. BELLINGER, D.D.S.

**Subject: "DIAGNOSIS AND TREATMENT OF LESIONS  
OF THE ORAL MUCOUS MEMBRANES."**

After graduating from the School of Dental Surgery, University of Michigan, in 1921, Dr. Bellinger served two years at the University Hospital, University of Michigan, in clinical oral surgery. Then followed two years in the department of Diagnosis and Pathological research, Harper Hospital, Detroit. Before receiving his present appointment of Surgeon-in-chief, Division of Oral Surgery at Henry Ford Hospital, Detroit, Dr. Bellinger spent five years in the private practice of oral surgery.

The presentation will be accompanied by coloured lantern slides.

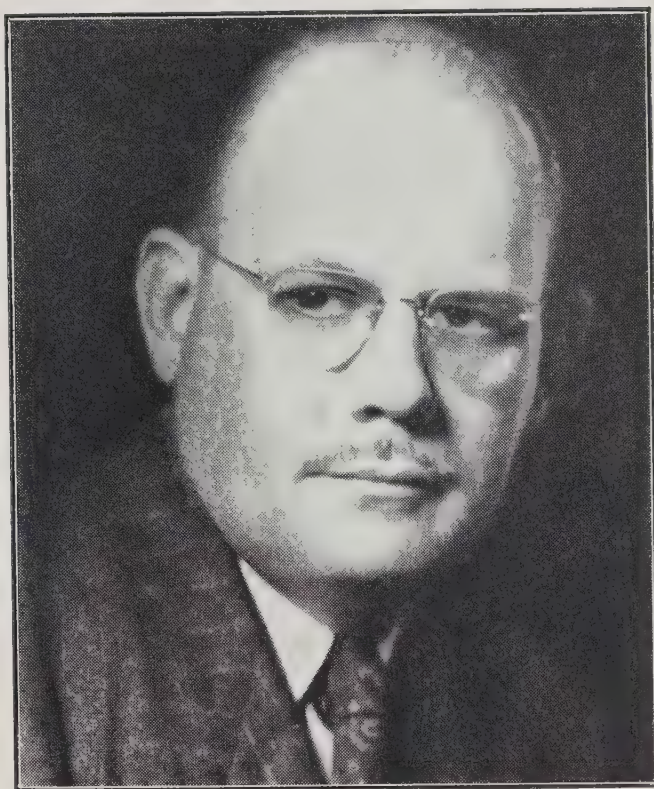

## THIRD GENERAL MEETING

ROYAL ONTARIO MUSEUM

WEDNESDAY, FEBRUARY 16, 1949

8:15 P.M.

GAYLORD J. JAMES, D.D.S., F.I.C.D.

**Subject: "BUILDING AND MAINTAINING A SUCCESSFUL  
DENTAL PRACTICE."**

Dr. James received his dental degree from Western Reserve University, 1925. He is now assistant Professor of Practice Management in the same University. Dr. James was treasurer of the Cleveland Dental Society, 1945-46-47, and is a Past President of the Alumni Association of the School of Dentistry, Western Reserve University. He has been President of the Cleveland Study Club of Dental Economics and Chairman of the Section on Practice Management of the American Dental Association.

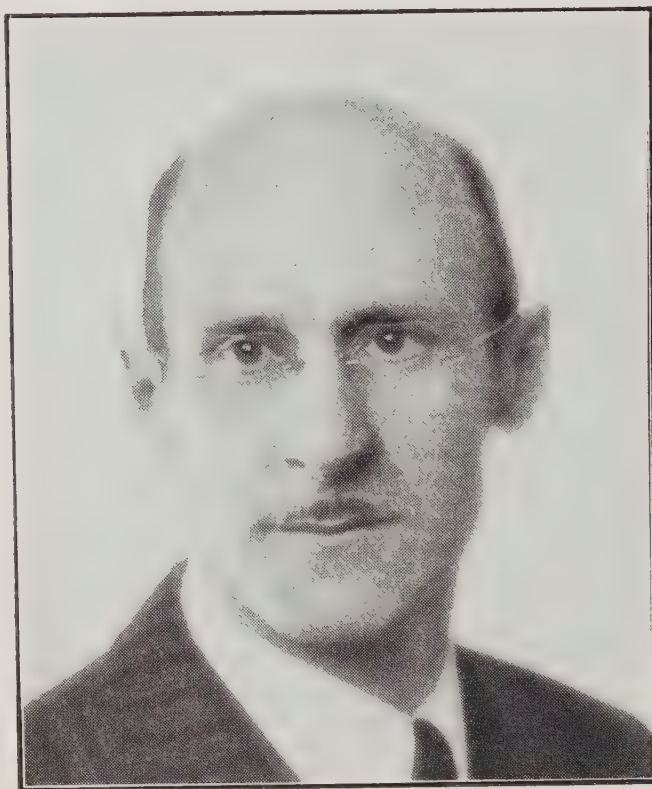

In his presentation he will stress the fact that professional and economic factors must be interrelated and coordinated in the dentist's mind to such a degree that the use of these fundamental tools are constant in their daily application.

## FOURTH GENERAL MEETING

ROYAL ONTARIO MUSEUM

THURSDAY, MARCH 10, 1949

8:15 P.M.

CARL O. BOUCHER, D.D.S., F.A.C.D., F.A.D.P.

**Subject: "COMPLETE DENTURE PROTHESIS."**

A graduate of the College of Dentistry at the Ohio University in 1927, Dr. Boucher became affiliated with the faculty of the University in the College of Dentistry in 1928. He is at present Professor of Dentistry, Chairman of the Prosthetic Division and Director of Dental Technology.

Dr. Boucher will illustrate his lecture with slides and coloured motion pictures.

There will be two limited attendance clinic sessions: 9.30 a.m.—12 noon, and repeated 2 p.m.—4.30 p.m. Attendance will be limited to the first twenty making application for each session.

Application and registration fee of ten dollars, made payable to the Academy of Dentistry, should be forwarded to the Secretary, Earl A. Bancroft, 274 Danforth Avenue.

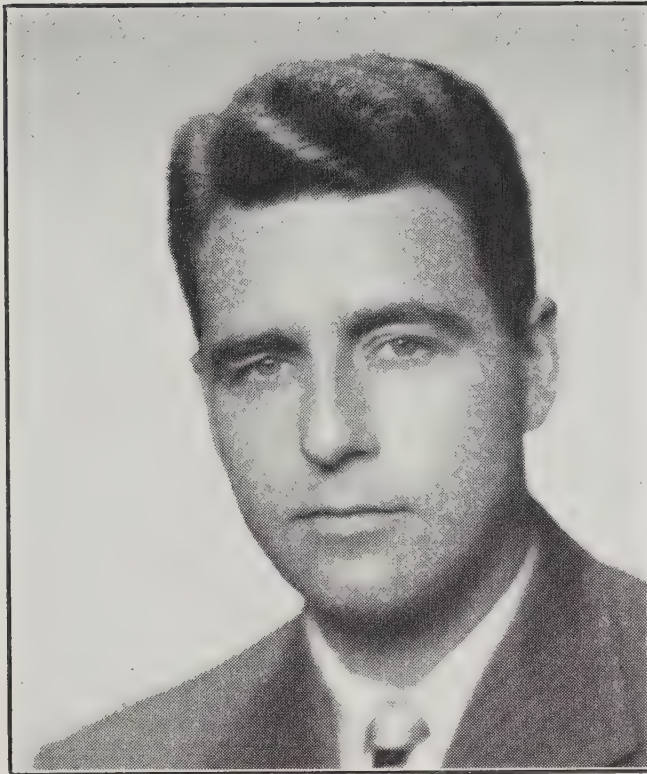

## FIFTH GENERAL MEETING

ROYAL ONTARIO MUSEUM

WEDNESDAY, APRIL 13th, 1949

8:15 P.M.

JOHN R. THOMPSON, D.D.S.

**Subject: "THE REST POSITION OF THE MANDIBLE AND ITS  
SIGNIFICANCE TO DENTAL SCIENCE AND PRACTICE."**

Dr. Thompson was formerly associated with the University of Illinois as Research Associate of the Department of Orthodontia and Director of the Department of Oral Anatomy. He is now Professor and Director of the Department of Orthodontia at the Northwestern University Dental School.

Dr. Thompson's lecture will deal with growth and development, muscle physiology, the vertical dimension of the face, and the application of the fundamental information to restorative dentistry and functional pathology of the tempero-mandibular articulation.

a simple cavity...  
yet how often it needs

"The difference  
that's distinctive"

No need to tell you, doctor, about the hypersensitive character of a simple gingival third . . . and how it can consume a disproportionate amount of your time and temper.

But we can tell you about Novocain-Pontocaine-Cobefrin, the local anesthetic specifically developed to overcome the evident inadequacies which conventional solutions too often impose on just such operative cases. "NPC" provides the **added depth, density and duration** which you so obviously need—and does so with neither an increase in vasoconstrictor content nor a perceptible decrease in patient toleration.

Once you've used "NPC" . . . once you've compared the results . . . you'll quickly see how truly distinctive its difference really is.

***“that  
little  
bit  
extra”***

No other type of dental restoration is so dependent on the dentist's eye for color and tooth form as acrylic and porcelain crown and bridge work. Color and form *MUST* match natural teeth and there can be no sacrifice of functional requirements in the process.

Your prescription is “what the doctor ordered” to restore appearance, comfort and, in many cases, your patient's sense of well-being. It is the function of our ceramic department to fill the prescription, adding “that little bit extra” to artistry and precision craftsmanship to help you reproduce the work of nature.

## CANADIAN DENTAL ASSOCIATION

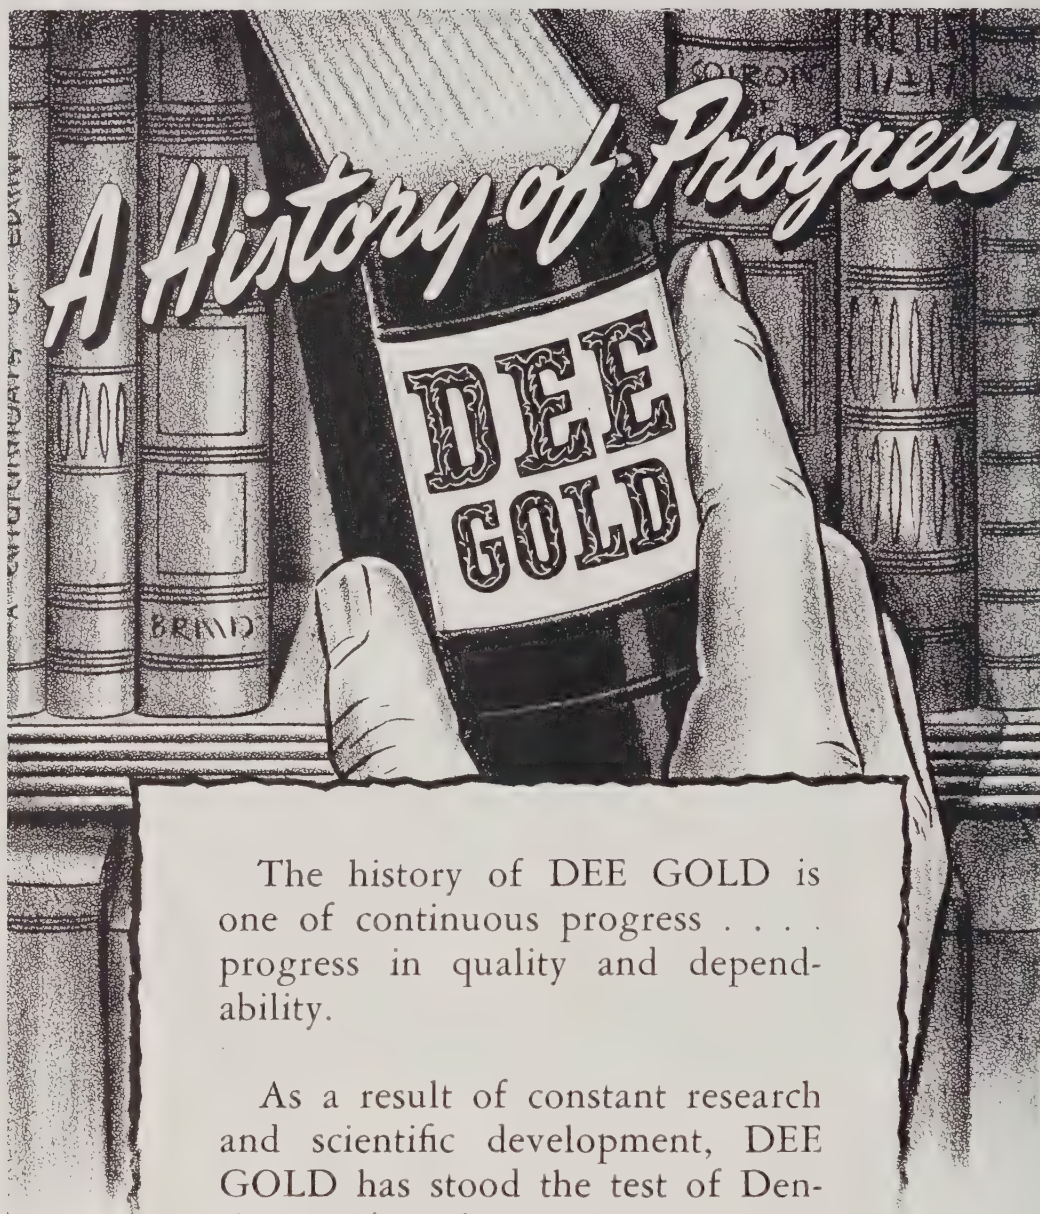

DR. H. J. MERKELEY, President

May I on behalf of the Officers, Board of Governors, and Members of the Canadian Dental Association, express our appreciation for the splendid co-operation your group has given us. Your efforts and achievements have meant much to Dentistry and have been an inspiration to other groups.

With the advice and support of such groups the future of our organization and its ability to serve the whole profession is almost unlimited.

I offer congratulations on your achievements and extend best wishes for your continued progress.

The history of DEE GOLD is one of continuous progress . . . . progress in quality and dependability.

As a result of constant research and scientific development, DEE GOLD has stood the test of Dentistry. For almost 60 years, the name DEE has been synonymous with the creation of a better dental service.

## PLAN FOR HOSPITAL CARE

Fellows of the Academy of Dentistry, Toronto, are eligible to participate in the Group Plan sponsored by the Academy.

### The Contract Provides:

**51 days** of hospital care in a contract year for the subscriber—**51 days** for wife—**51 days** for each child under 18 years of age—

**Plus Ten** additional days for each year of continuous participation of subscriber or dependent in the Plan, up to a maximum of Two Hundred and One Days, making total days for each person enrolled, as follows:

|                     |                     |
|---------------------|---------------------|
| 61 DAYS—SECOND YEAR | 81 DAYS—FOURTH YEAR |
| 71 DAYS—THIRD YEAR  | 91 DAYS—FIFTH YEAR  |

AND SO ON . . . TO A MAXIMUM OF 201 DAYS

*N.B.—Hospitalization for tuberculosis, nervous and mental disorders limited to a total of 51 days in all regardless of the length of time this contract has been in force.*

Semi-private accommodation.  
Meals and general nursing service.  
Use of operating room.  
Anaesthesia equipment and material.  
Routine clinical pathology service.  
\*Electrocardiographic films.  
\*X-ray. (Up to \$25 each admission.)  
\*Routine bio-chemistry service.  
\*Basal metabolism tests.

Ordinary drugs and medications.  
Biological sera and modern medications (penicillin, etc.). (Up to \$25 each admission.)  
Dressings and plaster cast materials.  
\*Oxygen Therapy.  
Glucose. Dextrose and Saline Solutions.  
Emergency hospital service. (X-ray included to a maximum of \$25.)

Maternity Care: After husband and wife have been enrolled for 10 months, Plan pays 50% of usual hospital services for childbirth.

*\*Electrocardiographic films, x-ray, basal metabolism, laboratory tests and oxygen are provided only when condition necessitates continuous treatment in hospital.*

### Benefits Not Provided:

- hospital care in non-participating hospitals except as provided for in Article VIII of the Terms and Conditions of Enrolment.
- hospital services solely for tests.
- rest cures, radium therapy, or physical therapy, blood and blood plasma.
- patients not needing bed care except as specifically provided for in case of accidents.
- the professional services of a physician, surgeon, anaesthetist, special nurse nor the services of blood donors.

### Costs: Annual Payments as Follows:

|                                                         |         |
|---------------------------------------------------------|---------|
| Single Subscriber .....                                 | \$12.00 |
| Subscriber, wife, and all children under 18 years ..... | \$24.00 |
| Dependent children, 18 years and over, each .....       | \$12.00 |

Payments are made annually before November 30th of each year.  
Notice of payments due is sent out about November 1st.

### New Applications:

Fellows desiring to take advantage of the benefits provided by the Group Plan in the Blue Cross should obtain an application card by telephoning the office of the Chairman at Waverley 2236. Applications, together with a cheque, made payable to the Academy of Dentistry, should be in the office of the Chairman before November 30th, next. Coverage commences on January 1st, 1949.

### A Suggestion:

If you have a child born since you joined the PLAN make certain that it is listed with the Blue Cross. Telephone the Chairman, giving the name and birth date, and your child will be registered for full benefits under your contract.

Chairman: CHARLES McLEAN,  
1503 Sterling Tower,  
Bay and Richmond Streets.

TORONTO ORTHODONTIC STUDY CLUB

President .....W. Roy Hendry  
Secretary-Treasurer .....Harold E. Leslie

The club's programme for the ensuing year will include business luncheons and evening sessions. A review of the current literature on Orthodontics will be made by the various members. The scientific programme for the year will include a study of the Johnson Twin Wire Technique which later will be followed by a course to be given by Dr. Johnson.

The members of the club are as follows:

|                |              |                 |                   |

The Executive and members of the Dental Nurses' Alumnae extend an invitation to all Graduate Dental Nurses to become active in our association. You need your Alumnae—your Alumnae needs you!

Our meetings are held on the first Wednesday of each month at the I.O.D.E. Headquarters, Spadina and Lowther Avenue. The programme planned for the year is both informative and interesting and each one will benefit by attending. A special invitation is extended to the class of 4T8 to become members in our association.

May I express sincere appreciation on behalf of all members to the Academy of Dentistry for the privilege of presenting this message.

MARION BARTON, President.

# TORONTO AFFILIATED ASSOCIATION ONTARIO DENTAL NURSES' AND ASSISTANTS' ASSOCIATION

The Executive and Members of the Toronto Affiliated Association extend a hearty invitation to all Dental Assistants and Nurses to attend their meetings on the first Monday of each month at the Royal York Hotel in Private Dining Room No. 7.

In planning the programme it is our earnest desire to make it entertaining as well as educational. We aim to create good fellowship and friendliness among our members and a cordial welcome awaits all new Dental Assistants and Nurses.

The dates of our meetings and a tentative programme is listed below and we hope with the support of all members to make 1948-49 an enjoyable and profitable year.

We record here our appreciation of the support and co-operation given our Association by the members of the Academy of Dentistry. We extend to them our best wishes for a very successful year.

ELIZABETH BROWN, President.

## TENTATIVE PROGRAMME FOR 1948-49

- Sept. 20—Executive Meeting.
- Oct. 4—"Personnel and Personality in a Dental Office."  
Dr. J. A. Bothwell.

STUDY GROUPS

The study group in Prosthetics was so successful last year, it has been decided to form several groups to convene this Fall and Winter.

A number of subjects have been suggested as Pedodontics, Periodontia and Orthodontia for the general practitioner, X-ray Interpretation, etc.

Anyone interested in forming a group is requested to contact the Study Group chairman, Dr. R. C. Moore, 2 Grenview Blvd., for information. MU. 1838.

①

Insert aspirating Anestube in syringe tray in the usual manner.

②

Engage plunger by a single twist of the plunger rod.

③

Lock Anestube in place. Inject, aspirating at any time you wish.

# another safety feature now available in new ASPIRATING TYPE MONOCAINE ANESTUBES

Now—for the first time—you can have the convenience of the new aspirating Metal Cap Anestube cartridges plus the added safety factor provided by aspiration.

A threaded rubber plunger and threaded plunger rod on the specially designed syringe makes it possible for you to aspirate before depositing the solution. Thus you can preclude the possibility of accidental injection into a blood vessel, and causing toxic disturbances.

Send the coupon for our Introductory offer of an Aspirating Syringe, 25 Aspirating Anestubes with Monocaine 1½% Epinephrine 1:100,000 and 6 vials Penicillin in Sodium 30000 Units.

NOVOCOL CHEM. MFG. CO. OF CANADA LTD.  
11-13 GRENVILLE ST., TORONTO

Please send your introductory offer — Aspirating Syringe, 25 Aspirating Anestubes and 6 vial Penicillin Sodium 100,000 units.

Dr. ....

Address .....

Dealer .....

The Aspirating Anestubes are used with the Aspirating Anestube Syringe. They are shorter and easier to handle but contain about the same amount of Monocaine as the Standard Size. They may also be used as the solvent for Penicillin.

Monocaine is the reg. trade mark of the Novocol Chem. Mfg. Co.

**NOVOCOL CHEMICAL MFG. CO., of CANADA, LTD.**

**11-13 Grenville St., Toronto, Ont.**

Brooklyn, N. Y., London, Buenos Aires, Rio de Janeiro

Novocol Products Sold in Canada are made in Canada

## REPORT OF THE SECRETARY 1947-48

---

The following is a report of the activities of this Academy for the year 1947-48. Under the capable and efficient leadership of Dr. F. Harold Shepherd the paid membership reached an all time high of 503 Fellows. There were eight Honorary Life Fellows and seven Honorary Fellows, also the privileges of the Academy were extended to the twenty-four ad eundem students at the Faculty.

The task of keeping the mailing list accurate has been most arduous with so many of the Fellows changing their locations. The secretary would appreciate it if the Fellows would notify him immediately of any change of address.

The Annual Dinner was held at the Royal York Hotel with Senator Bouchard of St. Hyacinthe, Quebec, as guest speaker. He gave a masterful address on the subject "Unity Across Canada". Dr. A. D. A. Mason was made an Honorary Life Fellow of the Academy in recognition of the many years of meritorious service, which he has rendered to the profession. A presentation suitably inscribed was made to Dr. Howard Graham in appreciation of his services as chairman of the War Services Committee.

The holding of our Stated Meetings in the Theatre of the Royal Ontario Museum was a happy move, and the Fellows were able to enjoy the meetings in comfortable surroundings.

There were five stated meetings held during the year, the last one in conjunction with the Ontario Dental Association. The essayists were of the usual high calibre and maintained the interest of the Fellows who attended in goodly numbers.

In addition, Dr. Steffel presented a limited attendance session on Partial Denture Prosthesis.

The Winter Clinic, under the capable chairmanship of Dr. J. H. Johnson, was again an outstanding success. The attendance on this occasion was 800 which compared favourably with previous winter clinics. The speaker at the noon luncheon was Prof. Robins, who gave a very interesting discourse on "Non-Informative Reading". Dr. W. B. Amy was made an Honorary Life Fellow of this Academy in recognition of the many years of service to the profession in general and this Academy in particular.

The activities of the Rehabilitation Committee are fast drawing to a close. The lease on 14 Spadina Road terminates in June, 1948. This Academy is greatly indebted to the chairman of this committee as well as its members for the manner in which this project was carried out and to the Dental Trades Association for their financial assistance and to the very capable and efficient secretary of the Board of 14 Spadina Road, Mr. Chas. McKenna.

The Blue Cross Plan for Hospital Care, under the direction of Dr. Charles McLean, has a total of 800 Fellows and their dependents protected under this Plan.

The annual prize of one hundred dollars, presented by the Academy to the student in the final year at the Faculty of Dentistry showing the greatest proficiency in Dentistry for Children, was awarded to Edward Ralph Wood Bilkey.

Arrangements have been made to continue holding our Stated Meetings at the Theatre, Royal Ontario Museum.

Respectfully submitted,

EDGAR A. WHITE.

# TREASURER'S REPORT

## ACADEMY OF DENTISTRY

### REVENUE AND EXPENDITURE ACCOUNT

#### FOR THE YEAR ENDED 30TH APRIL, 1948

The Academy of Dentistry,  
Toronto, Ontario.  
Gentlemen,

We have prepared the attached Balance Sheet of the Academy of Dentistry as at 30th April, 1948, together with a Revenue and Expenditure Account. Subject to the following report, we hereby certify that, in our opinion, the attached Balance Sheet is properly drawn up so as to exhibit a true and correct view of the state of the Academy's affairs at that date, according to the explanations and information given us and is as shown by the books.

We report upon the various Balance Sheet items in their order as follows:

#### Assets

##### Cash in Bank—\$2,048.64

Your bankers have confirmed the bank balance to us by certificate.

##### Dominion of Canada Bonds—\$5,516.18

Details are shown on the face of the Balance Sheet. We have verified the interest revenue due from these bonds.

We have examined the bonds comprising the above total. One bond, due October 15, 1952, was called in for redemption on October 15, 1947. This bond should be turned in to the Government for payment.

#### Liabilities

##### Accounts Payable—Nil

Your Treasurer, Dr. E. L. A. Bancroft, has certified that all known liabilities to 30th April, 1948, have been paid and that there were, at that date, no guarantees or contingent liabilities outstanding.

##### Profit and Loss

Details are shown on Schedule A.

A comparison of the total revenues and expenses for the current year with the preceding one is as follows:

|                                   | For the year ended |                  |
|-----------------------------------|--------------------|------------------|
|                                   | 30th April, 1947   | 30th April, 1948 |
| Total Revenue .....               | \$4,711.89         | \$5,560.94       |
| <b>Less:</b> Total Expenses ..... | 4,289.88           | 4,859.52         |
| Surplus for the Year .....        | \$ 422.01          | \$ 701.42        |

As we were unable to make a complete verification of all the sources of revenue, we are, accordingly, able to certify to the correctness of the Revenue Account only to the extent that it is in agreement with the books and information given us.

We are,

Yours faithfully,

HILL, TESKEY CO.,  
Chartered Accountants.

# DIETS

Heinz Nutritional Charts are prepared especially for the guidance of dentists, physicians, nutritionists, dietitians, and public health workers, and have proved useful in devising and prescribing diets where the patient is suffering from oral disorders or irritation.

Heinz Strained Foods may be safely recommended by dentists because they are thoroughly cooked uniform fine particles with the coarse indigestible fibre removed. Being smooth, they cause a minimum of mechanical irritation to sensitive mouths, gums and digestive systems. Not only are they easily digestible, but in general their nutritional value is very good. The wide assortment of Heinz Strained Foods available provide your patients with more variety and aid in giving nutritional balance to diets during the restricted period.

When a restricted dietary regime is prescribed, better co-operation from the patient is obtained if preparation of the diet is made as simple and convenient as possible and variety is provided. For complete information on Heinz Strained Foods and free copies of Heinz Nutritional Charts write direct to H. J. Heinz Company of Canada Ltd., 420 Dupont Street, Toronto 4, Ontario.

## HEINZ STRAINED FOODS

### Uses

#### Soft Diets—for Special Cases

##### INABILITY TO MASTICATE OR SWALLOW

Sore Mouths or Throats

1. Tooth Extractions
2. Broken Jaws
3. Tonsillectomies
4. Infections
  - (a) Trench Mouth  
(Vincent's Angina)
  - (b) Severe Septic  
Sore Throat
  - (c) Abscesses
  - (d) Quinsy

You are invited  
to attend an actual session of the  
**REILLY COURSE**  
**OF EFFECTIVE SPEAKING AND PERSONALITY DEVELOPMENT**

Classes are held during the evening in Studio No. 506, Bloor Building, 57 Bloor West. If you telephone us at KI 6424, or write to the above address, we shall gladly mail you a guest ticket — no obligation.

When the chairman calls on you, how will you respond? Will you decline in confusion; get up and apologize for lack of preparation, for not being a speaker, and then ramble on with a series of disjointed remarks? Or . . . will you quietly come forward, present one or two main points, talk without apology or hesitation, and conclude briefly and effectively?

The ability to speak well is a priceless asset and the prime requisite of every leader. Many prominent professional men have benefited from Reilly training. We cordially invite you to visit one of our groups to see how the courses are conducted.

# CAROID★ DENTAL POWDER

has been clinically tested by the Dental Faculty of a leading university. Results of three years of clinical and laboratory testing are summarized below:

- 1 cleans and polishes teeth safely  
Caroid Dental Powder equalled all requirements for a safe non-abrasive dentrifice.
- 2 liquefies oral mucin  
Helps prevent formation of bacteria-harboring plaques on the teeth by dissolving viscous deposits.
- 3 dissolves organic debris  
Acts rapidly to dissolve food particles and remove broken-down epithelial tissue in the oral cavity. This action also assists the healing process in the surgical treatment of pyorrhea.
- 4 retards formation of calculus deposits  
Calculus is softened by action of the enzyme on the organic matter in the lime salts which form the deposit.
- 5 harmless to vulcanite and acrylic dentures  
Immersion tests at 37°C. showed no effect on consistency, color or odor.
- 6 removes stain from metal  
Remarkable cleansing and polishing action on gold or other metal used in crowns, bridges, partial dentures, removable or fixed appliances.

FOR THE SUSTAINED CONCENTRATION OF PENICILLIN  
SO ESSENTIAL IN VINCENT'S INFECTION

## *Penicillin Chewing Troches*

**SQUIBB\***

"The pattern of response to penicillin administration in acute Vincent's infection of mouth or throat has generally been described as dramatic."<sup>1</sup>

The problem of adequate and sustained concentration of penicillin in the mouth is vastly simplified with Penicillin Chewing Troches Squibb. Each troche contains 20,000 units of penicillin calcium in a flavored paraffin base. This high potency helps to secure rapid and effective control of the infection.

Slow chewing of Penicillin Chewing Troches Squibb provides a high concentration of penicillin in the saliva during the first hour and significant levels *even at*

*the end of four hours.* Infected tissues that might not be reached by more static methods of local administration can be reached with chewing troches.

Two or three troches daily have proved sufficient in many cases of Vincent's infection, but where conditions require a continuous high concentration of penicillin, the troche may be renewed every hour or two.

PLEASE SPECIFY SQUIBB WHEN WRITING  
YOUR PRESCRIPTION. Box of 6 Troches.

*\*Accepted by the Council on Dental Therapeutics of the American Dental Association.*

# INTRODUCING

For correcting full impressions under equalizing pressure without tissue displacement

- ★ NO DIMENSIONAL CHANGES
- ★ IDEAL FOR REBASE IMPRESSIONS
- ★ EASY TO MIX

**Prepared without heat**

**Can be used in any correctable technique**

With S. S. White Impression Paste, tissue surfaces are accurately reproduced under normal conditions with no irritation or tissue disturbance. Minutely-fine tissue detail is obtained. Slight resiliency allows removal from the mouth without breakage or loss of accuracy. After setting, the impressions are tough and will not be impaired by handling.

Impressions will not shrink, expand, dry out or absorb moisture. Protected from heat, dust and damage they remain unaltered until the cast is poured, no matter how long an interval elapses. Impressions may be re-inserted in the mouth as often as needed for testing the fit, without danger of distortion occurring.

**Order S. S. WHITE IMPRESSION PASTE today**

## Improved Interchangeable Facings

Veri-Chrome Porcelain improves depth,  
refraction and translucency !

Now you can have Interchangeable Facings with Veri-chrome's controlled color brilliance! What does that mean? It means that there's no possibility of artificial color "clash" with human teeth . . . it means that expert color selection is simple and quick via the accurate *contrast comparison* system built-in the Veri-chrome Color Guide!

Veri-chrome porcelain also means that the facings grind smoothly—no checking or chipping—that it is easily polished to its original lustre—that Veri-chrome's depth, refraction and translucency faithfully simulates that of human teeth so that every remote trace of artificiality is effaced. For the best possible advice when ordering Interchangeable Facings . . .

# STRENGTH

*No. 5 of a series of advertisements discussing the various types of strength possessed by Vernonite.*

**7**he even balance and sum total of all of the various types of strength in Vernonite including *tensile, compression, shear, impact* and *transverse* strength combine to form the very desirable quality of *toughness*. This "toughness" is achieved through the special chemical composition of Vernonite, which is unique in the field of acrylic denture materials. It is assured by the scientific methods used in compounding its ingredients.

## VERNONITE DENTURES ARE TOUGH

Tough is defined as "strong or firm in texture, but flexible and not brittle; able to endure strain, hardship." Dentures possessing this property will carry maximum loads; they will yield under mastication without fracture; they won't chip. They can be sprung off models. They will withstand any stresses applied in mouth service without breakage.

Prescribe VERNONITE, the nation's first and most honored acrylic denture material, for **STRENGTH** and lasting satisfaction.

**Embarrassment can be avoided**

WITH

**DENTA PEARL** TEETH

Appearance is of utmost importance to denture patients. Embarrassment, caused by the chipping or breaking of an anterior tooth, can be avoided when Denta Pearl teeth are prescribed. Functional breakage—so common with brittle, hard porcelain teeth—is practically unheard of in resilient, tough Denta Pearls.

\* \* \*

Write "appearance insurance" into your tooth prescriptions by specifying Denta Pearl molds and shades.

## OLD GIMLET EYES

*(one of our tyrants)*

**T**HAT'S what the men who make 20th Century Alloy call this tyrant. It stands quietly in one corner of the Caulk Testing Laboratory, never uttering so much as the tiniest sound . . . but those eyes see in terms of one fifty-thousandth ( $1/50,000$ ) of an inch!

*Old Gimlet Eyes* is the interferometer that measures the expansion and contraction in T. C. Amalgam test cylinders. The unit of measure is the wave-length of helium light—and the head of an ordinary pin measures 3300 helium wave-lengths in diameter.

No wonder *old Gimlet Eyes* is a pain in the neck occasionally to the men who must submit every manufactured batch of 20th Century Alloy to the inspection of such a tyrant. Just let a test cylinder expand or contract too much or too little . . . then "NC" means that batch is rejected.

But, exacting as *Gimlet Eyes* is, it's only one of the tyrants in our testing laboratory. Still other devices which test "flow" and other physical properties, must also put their o.k. on every single batch of 20th Century.

With all of these controls, it's no wonder so many dentists declare that 20th Century is their preferred choice—that it is smoother, easier to work, carves like wax, and that every new bottle is just like the one they used before.
